

Akash Chouhan

Software Developer

6266068835 — akashchouhan1209@gmail.com — Bhopal, MP

Portfolio — GitHub — LinkedIn

Professional Summary

Aspiring React Native Developer with a solid foundation in JavaScript and frontend technologies. Experienced in building responsive and user-friendly mobile applications using React Native, Redux, and Firebase. Successfully implemented key features such as Google Sign-In, OTP authentication, and real-time data handling. Passionate about clean UI, performance optimization, and continuously learning new technologies including AI integration with JavaScript.

Education

Software Development

Masai School

Bachelor of Technology (CSE)

Lakshmi Narain College of Technology Excellence

Sep 2024 – Present

Bengaluru, Karnataka

Jun 2020 – Jun 2024

Bhopal, Madhya Pradesh

Technical Skills

Languages: JavaScript, React, React Native, Redux, HTML5, CSS3

Database: Firebase

Tools: Git, VS Code, Figma

Soft Skills

Adaptability, Teamwork, Time Management, Creativity, Effective Communication

Projects

Trexo Grocery App

GitHub

React Native, Firebase, Redux

- Built a grocery delivery app using React Native and Firebase.
- Integrated Google Sign-In and OTP-based login.
- Used Firebase for real-time data and a smooth user experience.
- Designed a user-friendly product catalog and seamless checkout flow with clean UI components.

MiniMart UI

GitHub

React Native, JavaScript, Redux

- Designed a clean product listing and cart UI using React Native.
- Implemented navigation and Redux for state management.
- Ensured responsive design across devices.
- Focused on smooth transitions, reusable components, and a modern UI layout.

Medium Clone

GitHub Live Site

JavaScript, Firebase Authentication, Firestore, HTML5, CSS3

- Developed a fully responsive Medium-style blogging platform with dynamic blog rendering.
- Implemented user authentication (Sign-up, Login, Logout) using Firebase Authentication.
- Used Firebase Firestore to fetch and sync blog posts and user data in real time.
- Designed a clean and modern UI inspired by Medium, ensuring seamless navigation across all devices.
- Focused on mobile-first responsive design with smooth transitions and consistent styling.

Certifications

Construct Week Project – Masai School

x to 10x Hackathon – Participation, Masai School
